

IMS for Cardiology

Fully Certified Cardiology EMR

EMR for CARDIOLOGY

Fully Certified Cardiology Electronic Medical Records and Practice Management Software

Performing rapid diagnosis and life-saving treatment are critical components of cardiovascular care – they can be cumbersome and challenging if your practice is not digital and electronically connected. Move your Cardiology practice to IMS EMR for quick and accurate diagnosis and treatment of your patients' cardiology needs.

Cardiovascular Templates and Workflow

Automate documentation, complete exams and diagnostic tests quickly and easily with point and click Cardiology template content and workflow. The template editor lets practices customize and add templates to suit individual preferences, allowing physicians to work as their particular practice and personal preferences demand. Templates feature intuitive pick-lists and check boxes to simplify documentation encouraging chart completion.

From anywhere in the EMR you can order and review critical tests and lab results with just a few clicks. This fully integrated electronic medical records (EMR) and practice management (PM) solution is ideal for the Cardiologist, connecting them to patients, payers, medical devices, pharmacies, labs and other health care entities regardless of the practice size, specialty or number of locations.

IMS for Cardiology

- Simplify patient visits with cardiology-specific templates for faster, more comprehensive documentation, storage and retrieval of detailed patient data.
- Enhance workflow with a paperless office. Gain better communications, greater efficiency and deliver better patient care.
- Improve overall revenue with accelerated reimbursement, automatic coding recommendations, decreased denials and increased patient flow.
- Built-in reporting tools scrutinize your practice's patterns for pay-for-performance, meaningful use requirements, quality measurements and business analysis.
- Access patient information at the point of care, no more chart-pulls and no more misplaced records.
- Eliminate redundant paperwork, enable patients to complete forms with patient portal and in-office kiosk.
- Achieve interoperability and connectivity with other health care entities, pharmacies and labs for referrals, orders and results.
- Local ongoing support from a national team of industry experts – Authorized Partners, dedicated to serving the needs and interests of the Cardiologist.
- Automate prescription writing, drug interaction and formulary checking with automatic alerts, and a fully-integrated drug database.
- Easily deliver patient education materials for cardiology-specific tests, procedures and disease management.

MACRA

A new Medicare Quality Payment Program effective 2017. The Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) ended the Sustainable Growth Rate formula and significantly changes how Medicare pays clinicians. Two pathways for reimbursement: Advanced Alternative Payment Models (APMs) or the Merit-Based Incentive Payments System (MIPS).

Purchase with Confidence

IMS is guaranteed to meet all of the MACRA and Medicaid Meaningful Use criteria and requirements or your money-back. How can we guarantee you will be qualified for incentive payments?

CCHIT Certification

IMS has received the most current CCHIT certification, and, as of February 18, 2014, the most recent version was recognized by CCHIT as a MACRA and Meaningful Use certified Complete EMR with ONC-ATCB 2014 Certification, meeting all criteria published by the U.S. Department of Health and Human Services (HHS) in the Final Rule.

Easily Achieve MIPS or Meaningful Use

IMS features unique dashboards that quickly identifies program deficiencies. Review clinical data with graphical charts identifying patients not meeting clinical measures quickly and easily. Tasks, reminders, alerts and letters can be generated to meet requirements. Patient Portal and Health Information Exchange available.

“Reduce the High Costs of Delivering Quality Care” — “Our monthly IT expenses were reduced over 87% after implementing IMS - a huge savings for our company.”

Rashmi Chauhan,
IT Director, The Wellness Plan, Detroit, MI

■ Quick documentation with Anesthesia-specific Templates

Monitor Congestive Heart Failure, CAD, hypertension, and more plus exchange clinical data for vital signs, stress tests, treadmills, and much more.

■ Auto Check-In

The Patient App feature lets the patients Check-In on their own. This feature reduces workload and helps in managing a high patient flow.

■ E-Prescribing and Prescriptions

The flexible and comprehensive prescription module tracks medications and refill history. Improve patient care with drug education integration, dosing, allergy and drug interaction and contraindication checks.

■ Authorization / Referral Tracking

Reduce missing authorizations and claim rejections with authorization checking at Check-In and Charge Posting. Authorization requirements can be set by procedure and insurance criteria.

■ Bar Coded ID Cards

Register patients with accuracy and speed using fully automated Bar-Coded ID Cards. Have accurate patient verification and correct critical data with just a swipe. ID cards can be printed from the scheduler, at check-in out and reports. Manage high patient flow with a fast and accurate check-in process.

■ Document & Image Management

Condense and organize files into a user-friendly, easily accessible digital document file cabinet with customized folder tabs. Integrated fax module allows you to send and receive faxes. OCR technology automates demographic entry by reading data from insurance cards and drivers license.

■ Lab Ordering, Reviewing and Tracking

Supports H 7 interface so you can send or receive diagnostic lab orders electronically. Customized test templates and pre-printed order forms. Comparative and graphical representation of lab data, allowing clinicians to compare labs and save time.

■ Plus so much more

Scheduler, Patient Portal, Integrated Appointment Reminders, Auto Check-In, Check-In Out, Lab Orders Tracking, Letter Writing, My Tasks Dashboard, Health Maintenance Reminders, Dispensary, Document Management, Reports Preparation and Management, Fax Management, Scan Module, Billing Collections, Auto Form Filler, etc.

The IMS Difference

IMS Ambulatory Electronic Medical Record (EMR) and Practice Management software are fully integrated sharing a single database, to meet your unique clinical and administrative needs. Our solutions can be implemented as an integrated solution or separately as stand-alone applications and can be deployed as a client-server or web-hosted solution.

It takes more than just software to deliver success in today's complex practice. That's why 1st Providers Choice ensures your success with local Authorized Partners, experienced in health

IT and certified in our solutions. Authorized Partners are with you all the way, from demonstrating IMS to implementation and beyond – your local ongoing single source solutions partner. As your Authorized Partner we're always available for fast on-site or phone support, training and personalized revenue improvement services so you can concentrate on practicing medicine not technology.

RANKING of IMS

Practice Management functionality
(5 out of 5 stars)

EMR/EHR functionality (5 out of 5 stars)

Ease-of-Use (5 out of 5 stars) Company

Viability (5 out of 5 stars) End-User

Satisfaction (5 out of 5 stars)

Why a Certified EMR?

To ensure that the system you select will allow you to qualify for MACRA and Meaningful Use federal incentive payments, select a solution that is EMR Certified. Since there are few benchmark measures available to provide a level of confidence regarding specific EMR functions an EMR certification is very important.

The ONC-ATCB certification has been developed by the federal government to certify that an EMR system meets the technical requirements needed for a provider to become a meaningful user of an EMR system. The use of an ONC-ATCB certified product is required to receive any federal government incentive money for the use of an EMR system. The ONC-ATCB certification test script is very specific to EMR criteria that qualified providers must meet in order to participate in the government incentive program. There are two types of ONC-ATCB certifications; one for Complete EMRs and one for EMR Modules. A Complete EMR certification for Meaningful Use means that the EMR product has met all 33 criteria tested. Whereas an EMR Module certification means that the product meets at least one of the 33 criteria tested.

“My bad-debt write-offs have been reduced over 90%. Pre-IMS, we had an average of \$80,000 per month outstanding in charges waiting for referral. Since implementation of IMS we now regularly maintain no more than \$400 per month. The Authorization tracking screen helps us in timely follow-up with the insurance companies. The billing module is great, in a way we now know what ensures timely payments. The aging reports help our billers set priority of follow-ups, making sure we work in the right areas”

Julie Ziehm,
Billing Manager, Mid Michigan
Cardiology Associates
